About Me

A results-oriented Project Manager and Electrical & Electronics Engineer with a strong theoretical foundation and extensive hands-on experience in both manufacturing and construction/project management processes. Skilled in supporting manufacturing operations, conducting cost and quantity takeoff analyses, site inspections, and workflow optimization based on Lean Manufacturing principles. Proven ability to collaborate effectively with cross-functional teams, with strong expertise in technical documentation and analytical problem-solving in high-pressure situations.

Experience

Project Manager
Vancouver, Canada
Esthete Home Services
Sep 2025-Aug 2026

Prepared detailed quantity takeoffs, cost estimates, and budget analyses for large-scale commercial construction and tower projects. Coordinated cross-functional teams to ensure projects remained aligned with budgets and technical specifications. Managed renovation and construction projects from design through completion, including budget and cost control. Conducted site inspections and property assessments to ensure compliance with contracts, building codes, and quality standards. Prepared technical, progress, and needs analysis reports to support senior management.

Coordination Assistant
Vancouver, Canada
Ploutos Enterprises Ltd.
Nov 2025-Marc 2026

Managed subcontractor and supplier contracts, processed construction payments, and reconciled project advances. Maintained accurate and up-to-date project documentation and system data.

Project Manager Assistant
Vancouver, Canada
Dag Masonry
Marc 2024-July 2025

Managed end-to-end operations for commercial and residential masonry projects, from cost estimation to field team leadership and quality assurance. Led client consultations, conducted technical needs assessments, and ensured high customer satisfaction. Monitored construction payments, advance deductions, budget variance reports, scope documentation, and change orders. Conducted site inspections and property assessments, preparing technical reports to ensure compliance with building codes and quality standards.

Flooring Estimator Assistant
London , England
Greenwich Floor Sanding
Apr 2023-Sep 2023

Assisted with site measurements, quantity take-offs, and material calculations for flooring projects. Supported cost estimation, quotation preparation, and project documentation.

R&D Engineer
Samsun, Turkey
Reeder Technology
Oct 2021-Apr 2023

Managed end-to-end R&D and manufacturing processes for consumer electronics products, including smartphones, robotic vacuum cleaners, smartwatches, TVs, and tablets. Collaborated strategically with production teams on product design and performance optimization, conducting testing and analysis to ensure high-quality standards. Identified process inefficiencies and implemented continuous improvement initiatives based on Lean Manufacturing principles.

Education

Graduate Certificate Program — Business Administration (CO-OP)
Canadian College of Technology and Business | Vancouver, Canada
2024 - 2026

Master's Degree — Electrical and Electronics Engineering
Samsun University | Samsun, Turkey
2022 - 2024
Thesis Not Completed

Bachelor's Degree — Electrical and Electronics Engineering
Kahramanmaras Sutcu Imam University | Kahramanmaras, Turkey
2015 - 2017

Bachelor's Degree — Electrical and Electronics Engineering
On Dokuz Mayis University | Samsun, Turkey
2012 - 2015
